### DETAILED ACTION

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 26-35, drawn to a roll without a winding tube and with a center unwinding first strip.

Group II, claim(s) 36-51, drawn to manufacturing processes of a roll without a winding tube and with a center unwinding first strip; and

2. The inventions listed as Groups I - II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the common technical feature in all groups is a roll without a winding tube and with a center unwinding first strip. This element cannot be a special technical feature under PCT Rule 13.2 because the element is shown in the prior art. US Patent 5,577,634 shows a coreless roll with a first center unwinding strip (see figure 1) used in a paper towel dispenser (see figure 2) substantially as claimed in claims 26-29. This reference shows a first strip forming a projection along the axis in relation to at least one part of at least one side of the roll.
3. Also, US Patent 5,849,357 shows a coreless roll with a first center unwinding strip (see figure 1) shown in a method of producing a coreless roll of fibre-based, web-

like material substantially as claimed in claims 26-29. This reference shows a first strip forming a projection along the axis in relation to at least one part of at least one side of the roll.

4. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

### ***Conclusion***
